

Monash Health

Position title:	Grade 2 rotational pharmacist
Classification:	SX2 – SX5 Hospital Pharmacist Award
Reports to:	Pharmacy Team Leader
Department:	Pharmacy – The Victorian Heart Hospital

About Monash Health

Monash Health is Victoria's largest public health service. We provide safe, high-quality care to one-quarter of Melbourne's population, across the entire lifespan, from pre-birth to end-of-life.

More than 22,000 of us work at over 40 care locations across south-east Melbourne, including seven hospitals and an extensive network of rehabilitation, aged care, community health and mental health facilities. Each year:

- We provide more than 3.4 million episodes of care to our community,
- More than 276,000 people are admitted to our hospitals,
- Close to 220,000 people receive care at our three emergency departments,
- We respond to more than 67,000 ambulance arrivals,
- We perform more than 48,000 surgical procedures, and
- We deliver more than 10,000 babies.

We are an equal opportunity employer and committed to a fair, non-discriminatory workplace that maximises the talent, potential and contribution of all.

Job summary

Purpose

- To provide best practice pharmacy services and exceptional patient-centred care by ensuring medication safety and optimising medication management
- To provide pharmacy services at the Victorian Heart hospital as part of a pharmacy and interprofessional team in a diversity of pharmacy practice settings through operational and clinical pharmacy rotations to achieve the best outcomes for our patients
- To provide medicines and medication advice safely and professionally to patients, carers and health care professionals
- To act up as the pharmacy team leader depending on the practice area, as required
- To perform tasks in accordance with the designated scope of practice for a registered pharmacist

Key result areas

- Assist in the education and training of pharmacy staff, pharmacy students on placement and intern pharmacists rostered within the operations and clinical pharmacy services rotations
- Support operations and clinical pharmacy services team leaders/members in providing an efficient and effective service that is consistent, high quality, safe and innovative
- Adhere to governance processes for the service area and contribute to continual quality improvement (CQI) initiatives
- Contribute to appropriate service area reports and performance metrics
- Ensure Monash Health's guiding principles, iCARE values and code of conduct, policies and procedures, best practice and professional standards and legislative requirements are promoted and complied with

Scope

Key internal relationships:

- Pharmacy Leadership Team
- Pharmacy team leaders in the pharmacy service area to which they are rostered (or their delegates). The role will report to these pharmacists as appropriate
- Pharmacy staff across all service areas
- Medical, nursing and midwifery and other interprofessional Monash Health team members
- Various committees, including Pharmacy Continuous Quality Improvement (CQI) Committees

Key external relationships:

- Patients, clients and carers
- Pharmacy students on placement

Responsibilities

Operational / Clinical

Specific to this position

- Carry out all tasks and duties as required in the pharmacy service area to which they are rostered; specific tasks are dependent on the area but may include the following (after successful completion of the relevant credentialing programs):
 - Review and dispense prescriptions
 - Provide education and advice to patients/carers about their medication management and liaise with relevant community health care professionals to facilitate optimal transitions of care
 - Obtain and document best possible medication histories for inpatients and ambulatory patients
 - Reconcile prescriptions and inpatient medication orders/medication administration records against best possible medication histories
 - Review inpatient medication orders/medication administration records and communicate with medical, nursing and other health care professionals regarding recommendations for optimisation of medication management including therapeutic drug monitoring, medication stewardship programs and administration methods
 - Provide medicines information and advice to other health care professionals
 - Facilitate supply of and patient access to pharmaceuticals (includes medicines, fluids and other products supplied by pharmacy) in line with the Monash Health medication formulary
 - Assist in the compounding of non-aseptic and aseptic products
 - Prioritise workload to optimise quality and safety and patient flow
- Meet pharmacy operational requirements by organising and directing pharmacy team members' work flow and checking pharmacy technicians', intern pharmacists' and pharmacy students' preparation and labelling of pharmaceuticals

- Maintain and develop knowledge and skills relevant to scope of practice through continual professional development, establishing personal and professional networks and participating in professional organisations/societies
- Maintain relevant performance metrics for the service area including workload, quality and efficiency
- Participate in quality improvement projects and research relevant to the service area and disseminate findings at relevant professional forums and/or through publications
- Attend meetings as required, including site-based staff meetings, committees and working groups
- Advise supervisory staff on issues and achievements associated with the service area
- Assist in the orientation and training of staff working in the service area as required
- Rotate through various practice areas of the Pharmacy Department at the Victorian Heart Hospital and if needed at other Monash Health sites
- Assist in other services of the Pharmacy Department when required in a cooperative and collaborative manner to ensure the efficient utilisation of staff and resources
- Participate in weekend, public holiday, late-shift and on-call rosters as required
- Carry out other duties delegated by the Director of Pharmacy, Pharmacy Leadership Team members or Pharmacy Team Leader as required

Quality and safety

- The following responsibilities and accountabilities exist to ensure we deliver our National Standards. Refer to Monash Health's Clinical Governance Framework for more information:
 - Carry out compliance and improvement against the key elements of quality and safety
 - Be responsible for the quality of care at point of care

Financial Management

- Ensure that there is financial responsibility and accountability across the functions under the position's control and develop and implement financial strategies that will ensure budgetary targets and key performance indicators are met
- Initiate and implement actions to improve the financial effectiveness of all functions, under the positions control

People

- Participate and co-operate in consultative processes to improve health and safety.
- Observe safe working practices and as far as you are able, protect your own and others' health and safety.
- Provide a safe and positive workplace
- Complete all necessary personal training and professional development requirements.
- Participate in annual performance development discussions with your manager and complete all mandatory training and compliance activity

Person Specification

Qualifications/ Registrations/ Licenses (*italics indicated desirable*)

- Registered as a pharmacist with the Australian Health Practitioner Regulation Agency (AHPRA)/ Pharmacy Board
- Minimum post-registration certificate completed/in progress OR Board of Pharmacy Specialties (BPS) or similar certification OR Advanced Pharmacy Practice Stage 1/2 (Transition/Consolidation) credentialed
